ABOUT ME

Web Developer with a background in Management Consulting. I am looking to leverage my development skills to provide web applications that support business initiatives. Earned a certificate in web development from UC Berkeley.

My management consulting experience has made me highly proficient working with teams to create dynamic and lasting business solutions. Recognized as a proactive, resourceful, and persistent problem-solver. Excellent communicator with effective relationship-building skills. I bring a strong technical acumen, along with a tenacity and desire to learn, grow and achieve in any endeavor, making me an asset to any organization or community I am a member of.
